This is my grandma, May.
She doesn’t remember much nowadays.
But she never forgets how much she loves eating durians with me.

Grandma has dementia.
But that doesn’t change the way I love her.

1 in 10 seniors aged 60 years and above has dementia.
Like May, persons with dementia may face challenges but they can still live at home with our support.

Sign up as a Dementia Friend via the Dementia Friends app and help build a more caring community.

With the Dementia Friends app, you can:
- Get info, tips & resources on dementia
- Post cases of missing loved ones & help keep a lookout
- Receive updates on events & training
